Oclean Sonic Electric Toothbrush User Manual

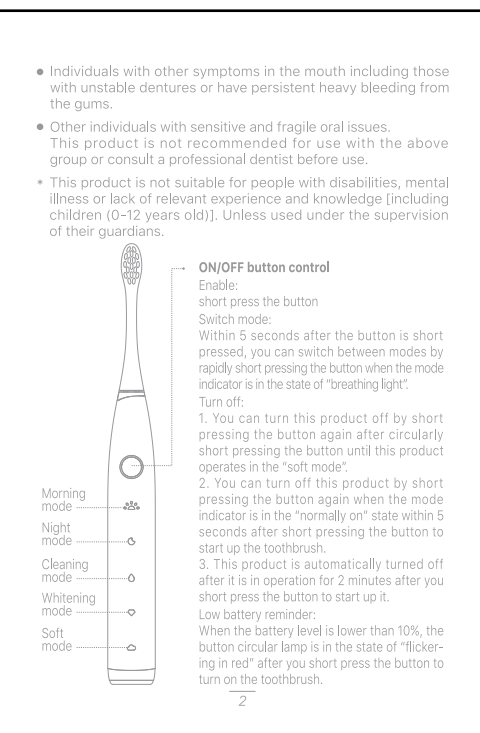

Thanks for using Oclean Sonic Electric Toothbrush.

Important Safety Notice

- When using the product for the first time, due to the high-speed swinging of brush, if it feels stimulating or numb, please do not worry, it is normal and the feeling will weaken and disappear gradually in around 7-14 days.
- If not using for long time (the product battery has no power due to the standby power consumption), when charging for the toothbrush again, the charging indicator doesn't show, please wait for 6-10 minutes patiently, it can recover normal charging.
- If the main part of toothbrush becomes slightly hot when charging, it is normal. If you feels hot with your hand, please immediately stop charging and submit the toothbrush to Oclean's After-sales Services Center for testing.
- The product can only use the special brush head for Oclean Sonic electric toothbrush. Oclean will not be held liable for all the consequences caused by the use of other unofficial or non-licensed brush head products.
- The product is only used for cleaning teeth and must not be used for other purposes.
- The product is only intended as a personal cleaning product. It is not recommended to use it by multiple persons simultaneously.
- The product is only used indoors, do not place the toothbrush under the blazing sun for quite a long time. It shall be placed in a dry and well-ventilated place with normal temperature.

Attention should be paid for those with the following conditions of oral sensitivities

- Those who have recently undergone periodontal surgery or are undergoing treatments.

Instruction for use

Default Brushing program
Five toothbrushing modes are built in this product: Morning mode, night mode, cleaning mode, whitening mode and soft mode.

- Morning mode: compared with "night mode", the pressure is low. As a cleaning and care tool, it can effectively remove dental plaque caused during the sleep.
- Night mode: deeply remove food residues and dental plaque on the teeth with high pressure.
- Cleaning mode: meet requirements for routine and ordinary cleaning. Compared with "night mode", the pressure is relatively tender.
- Whitening mode: effectively clean bite marks in those who have habits of smoking or frequently drink coffee, tea, etc.
- Soft mode: protect the health of gingiva while fulfilling the fundamental function of removing dental plaque in those who have oral allergy.

Type-C direct connection charging

Open the bottom cover of the electric toothbrush, connect Type-C interface into the port at the bottom of the toothbrush, connect one end of the USB interface to the power supply, the button circular lamp flickers in white and this indicates that the toothbrush is being charged.

Charging process

Charging status: the button circular lamp is on in white and flickers.

Use for the first time

The user may charge the toothbrush depending on his or her need for battery life to ensure normal use of this product.

Application process

When the battery level is lower than 10%, the button circular lamp is in the state of "flickering in red" after you short press the button to turn on the toothbrush.

Precautions

Battery can not be replaced by users themselves, it can only be replaced by the personnel in the customer center authorized by Oclean, non-specialized personnel can not dismantle the product by themselves, or it will be regarded as that the user give up the warranty automatically.

Please charge the Oclean toothbrush with a 5V/1A or 5V/2A mobile phone charger.

Such mobile phone charger includes iPhone charger, tablet charger, etc. If the charging current is lower than 1A, this may cause the charging time to be extended; if you charge the toothbrush with a mobile phone charger with a voltage of higher than 5V, this may cause the charger circuit to be damaged.

1. Do NOT disassemble, strike, extrude or throw the device into a fire.
2. Do NOT use the toothbrush if its battery is bulging or has expanded.
3. Do NOT subject the battery to a high-temperature environment.
4. Do NOT use the battery if it has been subjected to moisture.

Before the appliance is discarded, its battery must be removed from it. Before the battery is removed, the appliance must be powered off. The battery shall be disposed of safely.

Recommended tooth brushing method

Move the toothbrush slowly at 45° between the brush and gingiva line. There is no need to manually brush up and down during this process.

Hold the toothbrush handle gently, move slowly in a circular motion, and please do not apply excessive pressure.

Please gargle with clear water after brushing.

Cleaning and Maintenance

Rinse with tap water and air dry, and do not pull the bristles of the brush head.

Product specifications

Product Name	Oclean Sonic Electric Toothbrush
Model	F5002
IP Rating	IPX7
Power of Subject	1.85W
Charger	Type-C direct Recharge
Input	5V=1A
Service Time*	≤ 180 Days (*)
Battery Capacity	2500 mAh(**)
Charging time	≤ 5 hours(***)
Implementation standard	GB39669-2020

* Validated by 2 brushing processes per day and 2 minutes of each process.(Morning mode)
** The battery capacity theoretically has a capacity tolerance of ±50mAh.
***It is suggested to adopt the USB charger of 5V=1A in the phone industry.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

IC WARNING

This device contains licence-exempt transmitter (s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:
(1) This device may not cause interference.
(2) This device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil contient des émetteurs / récepteurs exempts de licence conformes aux RSS (RSS) d'Innovation, Sciences et Développement économique Canada. Le fonctionnement est soumis aux deux conditions suivantes :
(1) Cet appareil ne doit pas causer d'interférences.
(2) Cet appareil doit accepter toutes les interférences, y compris celles susceptibles de provoquer un fonctionnement indésirable de l'appareil.
